

Tuff-Tile Diamond

Tuff-Tile Diamond is an interlocking non-slip tile system with a moulded cellular structure designed to provide outstanding comfort and durability. Resistant to most chemicals and solvents, Tuff-tile Diamond also offers total protection to existing floors by reducing damage caused by impact, abrasion, and vibration. For use both indoors and outside, wet and dry environments, the tiles are suitable for fork trucks, pallet trucks, stillages and heavy loads as well as for wheelchairs, pushchairs, and trolleys. The tiles are easy and quick to assemble due to their unique interlocking joint. With an overall height of 14mm, bevel edges are needed to create the ramped edge.

Features

- ◆ **Typical applications:** An extremely hard-wearing mat ideal for use in garages, workshops, warehouses, factories, as temporary floor protection, schools, exhibitions and events, residential areas and sport and leisure facilities.
- ◆ **Material:** 100% recycled PVC.
- ◆ **Cleaning:** Wash with cold water and mild detergent, use vacuum cleaner, or use pressure pump to remove dirt.
- ◆ **Sustainability:** Recyclable material. REACH compliant.
- ◆ **Warranty:** Lifetime.

Black in stock, other colours available on request. Bevels available in both black and yellow
