

Tuff-Tile PennyDot

Tuff-Tile PennyDot is a non-slip interlocking tile system designed with a cellular structure to provide excellent durability and comfort. Resistant to most chemicals and solvents, Tuff-tile PennyDot also offers total protection to existing floors by reducing damage caused by impact, abrasion, and vibration. For use both indoors and outside, wet and dry environments, the tiles are suitable for fork trucks, pallet trucks, stillages and heavy loads as well as for wheelchairs, pushchairs, and trolleys. The tiles are easy and quick to assemble due to their unique interlocking joint. With an overall height of 12mm, bevel edges are needed to create the ramped edge.

Features

- ◆ **Typical applications:** An extremely hard-wearing mat ideal for use in manufacturing plants, assembly lines, picking, packing and logistics warehouses, individual workstations, garages, workshops, warehouses, factories, as temporary floor protection, schools, exhibitions and events, residential areas and sport and leisure facilities.
- ◆ **Material:** 100% recycled PVC.
- ◆ **Cleaning:** Wash with cold water and a mild detergent. The use of harsh detergents is not recommended.
- ◆ **Sustainability:** Recyclable material. REACH compliant.
- ◆ **Warranty:** Lifetime.
