

Stillage

Stillages are fabricated for both storing and transporting, a valued heavy-duty storage solution. Sized 2450mm x 1230mm x 900mm in height. Made from steel to hold a maximum weight load of 1400kg (WLL), they complement fabricated footing to allow for stacking and fixed posting. Recommended to stack no higher than three, the stackable model allows for efficient, safe and tidy storage. Stillages are typically in correlation with our ground protection range or holding the equivalent of up to two pallet spaces. Stillages are blue and require forklift access to be able to reposition, transport and offload. Steel fabrication offers durability and the ability to withstand harsh weathering environments

Features

- ◆ **Typical applications:** A perfect storing solution for ground protection mats, the event and hire market, on construction sites, warehouses, transporting fleet stocks or simply any environment that requires storing of mats.
- ◆ **Material:** Steel.
- ◆ **Cleaning:** Wash with cold water. Jet washing is not recommended.
- ◆ **Sustainability:** REACH.

Suitable for indoor and outdoor use
